### FAREWELL SONG

#### I

Soft over the campus comes the sound of voices clear  
And with our schoolmates have we gathered here  
Loyal friends together in dear Tourtellotte School we meet  
Mingling gladly ever in a friendship sweet.

#### CHORUS

Tourtellotte, our Tourtellotte  
We will keep thy colors bright  
Tourtellotte, dear Tourtellotte  
We honor thee to-night.

#### II

When in the gloaming years shall find us far from thee  
In reveries roaming in thy halls we'll be.  
Tourtellotte we do love thee as we sing our farewell song  
And we'll ne'er forget thee though we leave you long.

#### CHORUS

Tourtellotte, our Tourtellotte  
We will keep thy colors bright  
Tourtellotte, dear Tourtellotte  
We honor thee to-night.

ISABELLE B. BEAUREGARD

## MUSIC

Since my last report the grammar schools advanced in tone quality, and sight-reading of two and three-part songs.

In the school auditorium on March 16th and 17th, the High School presented, "The Fire-Prince", an operetta composed by Henry Hadley.

In April, the operetta soloists had an opportunity to broadcast from station WCAC at Storrs. Work of this nature creates a feeling of confidence and poise among students which is invaluable and also develops the appreciation of worth-while music.

At the graduation exercises, nine musical numbers were given, including the cantata, "Spring Cometh", by Richard Kountz.

At this time, I wish to express my appreciation for the loyal support and assistance given me by all those associated with me in any way in my work.

Respectfully submitted,

MARGUERITE C. BURNS

## SECRETARY'S REPORT

---

To the Selectmen of the Town of Thompson:—

The following report is submitted to the Town by the School Board.

The schools have opened with an enrollment of 221 children in the High School and 507 in the grade schools. The number of teachers remaining the same as last year.

The usual cleaning and repair work in the schools has been done as in previous years. The principal work being the installation of two new boilers for the High School and also two commercial oil burners. The committee expects these new heaters and the increased radiation to solve the problem of cold rooms in the High School. The redecorating of the auditorium has been postponed and the money appropriated for this purpose last year has been used toward the new heating apparatus.

There were several school activities last year which should be mentioned at this time. The operetta, "The Fire Prince", given by the High School pupils under the direction of Miss Burns, deserved much praise for the fine work of the pupils and the splendid training given by the instructor. Miss Burns does not return to us this year and we regret sincerely her departure. We are glad to welcome Miss Roy of Webster as her successor. In June an exhibition of work of both the pupils of the High School and the elementary schools are given. The work done by the girls of the Practical Arts Department in sewing and cooking was particularly appreciated by the mothers. The work of the children of the lower grades was very interesting. Many parents were surprised to see the splendid work done by their children. This kind of exhibition should be visited by every parent. The Town was proud when the High school boys, who had been coached by Mr. Coombs in basketball, finished the season with one hundred per cent victories. Later, they entered the State Championship Contest in Basket Ball and

won the silver loving cup given by Storrs College. This was not only a credit for Mr. Coombs and the boys but also for the Tourtellotte Memorial High School.

The Commencement Exercises last June were unusually fine. Eighteen boys and girls were graduated. Of this number Daniel Chubbuck and Curt Seastrand enter Storrs College, Francis Reardon enters the University of Washington, Wyla Rawson enters the Worcester Normal School, Ardath Leveille enters the Willimantic Normal School, Estelle Ravenelle enters St. Francis Hospital and Theresa Coderre enters Bay Path Institute.

The School Committee is asking once more for the co-operation of the parents. The school authorities, including the School Board, the Superintendent and the teachers earnestly desire the parents to visit the schools more often and find out the kind of work their children are doing in the schools. A great deal of misunderstanding could be avoided if the parents would take more interest in their children's work and occasionally interview the teachers. Will each parent please make it a point to do so this year?

The following is the list of names and salaries of the teachers:

Elwell F. Kimball	\$3,500.00
John D. Coombs	\$2,600.00
Louise H. Drude	1,300.00

## HEALTH OFFICER'S REPORT

To the Selectmen of the Town of Thompson:

Your Health Officer submits the following report:

The number of cases of communicable diseases reported to me from year to year, vary greatly. The preventative methods for diphtheria, scarlet fever, typhoid fever by the use of antitoxins is surely a Godsend to many families, particularly where there are several children in the same family. The vaccination against small pox before our children enter school has nearly made our schools immune from the dreaded disease.

The doctors are very favorable to introduce the same method for diphtheria. Several families have been vaccinated with the toxin-antitoxin this past season.

Cases reported to me are as follows:—

	Cases	Deaths
Chicken pox	10	
Diphtheria	6	1
German Measles	1	
Influenza	1	
Measles	3	
Pneumonia, Broncho	2	1
Pneumonia, Lobar	9	3
Septic Sore Throat	1	
Syphilis	1	
Tuberculosis	5	3
Whooping Cough	17	
Scarlet Fever	8	
	64	5

Scarlet Fever was epidemic in Grosvenordale in early June. It was in so mild a form the parents thought nothing serious was the matter with their children and let them go to school. One child was not as well as some of the other children and the mother sent for a physician and soon we

had the families quarantined and no more cases were reported.

Only two nuisance cases reported this year.

Our school buildings during the summer vacation have been thoroughly cleaned and are now in good condition to commence school. The school grounds show a more tidy appearance than heretofore.

This last year the State Department of Health examined the drinking water used in our schools also several other water supplies used by the public endeavoring to eliminate any supply that might cause the spread of some communicable disease by using the same.

Our town has been unusually free of communicable diseases the past year and I have felt that the preventative measure brought before the people in various ways by the State Department of Health is certainly one cause for the improvement. It seems to me with the many helps at our command the general health of our town must improve from year to year.

OSCAR MUNYAN,

Thompson Health Officer

Thompson, Conn., September 1, 1927.
